## Necrology.

---

### LORENZO M. KENYON, M.D.,

Born in Sheridan, Chautauqua County, N. Y., March 18, 1821, and died November 25, 1887, at his house in Buffalo, N. Y. He began the practice of medicine in Warren, Pa., about 1852, and in 1856 removed to Buffalo, where he soon secured an extensive practice, becoming one of the most eminent homœopathic physicians in his part of the State—widely recognized as a leader, and the first president of the Homœopathic Society of Western New York. In 1874 he was president of the New York State Homœopathic Medical Society. He was identified with many branches of charitable, church, and fraternal work, and as a man was held in the highest esteem by his large circle of acquaintances. He was elected a member of the American Society of Microscopists in 1886 at Chautauqua, N. Y.

### ARTHUR M. BARKER, M.D.,

Born in Kendall, N. Y., died in Buffalo, N. Y., December 6, 1887. Dr. Barker lived since boyhood in Buffalo, graduating in medicine in 1877 and at once became active in his profession. When the *Medical Press of Western New York* was established he became its first manager, was secretary for several years of the Erie County Medical Society, and an active member of several medical and scientific societies and clubs. Though prominent as an active practitioner, his tastes were those of a student of science, and his professional work bore the impress of a thinking mind. He was elected to membership of the American Society of Microscopists in 1885 at Cleveland, Ohio.
